

IAL In-depth Market Survey
**The Chinese Market for
Thermal Insulation Products - 2006**
First Edition

Published: June 2007

Price: €3,000

IAL Consultants is pleased to announce the forthcoming publication of its new multi-client survey on The Chinese Market for Thermal Insulation Products.

This report covers the rapidly expanding construction industry in China and the increasing use of thermal insulation materials. It builds upon IAL's knowledge of the thermal insulation markets and details the market for 2006 and projected sales of thermal insulation products through to 2011.

The research has drawn on the extensive database on thermal insulation markets developed by IAL for previous multi-client surveys carried out since 1988 and on other studies that have discussed specific raw materials used in thermal insulation products.

The single volume study covers the major thermal insulation materials across the six regions of China – East, South, North, South West, North East and North West.

This new study provides the following information:

- Production and consumption for 2006 and forecasts to 2011
- Market segmentation by geographic region, product and end-use sector for 2006 and forecasts to 2011
- Identification of leading manufacturers by product segments
- Local pricing information
- Market trends by product type
- Directory of major adhesives and sealants manufacturers

Research for this report has drawn on a variety of published sources, including government statistics, trade associations, in-house and library data. Our staff in Beijing also conducted an extensive telephone interview programme during the first quarter of 2007.
