

THE CHINESE POLYESTER RESIN MARKET

Publication: August 2007

Price: €3,000

IAL Consultants is pleased to announce the forthcoming publication of its report *The Chinese Polyester Resin Market*. This first-edition volume provides a detailed overview of China's rapidly-expanding market for unsaturated polyester resins, principally used in fibre-reinforced materials.

The Chinese polyester resin market has grown rapidly over the past decade. Total **consumption** was estimated to have reached over **1 million tonnes** in 2006. It is forecast that the market will continue to **grow at almost 10%** per year to 2011 due to booming growth in the end use markets.

This new study provides the following information:

- Production and consumption for 2004 and forecasts to 2009
- Imports and exports
- Market segmentation by geographic region, product and end-use sector for 2004 and forecasts to 2009
- Market share of leading manufacturers
- Identification of leading manufacturers by product segments
- Distribution of adhesives and sealants
- Local operation features including tariffs and taxes, intellectual property, technology transfer, environmental regulations and standards.
- Directory of major adhesives and sealants manufacturers

The report is an invaluable guide to companies involved in the supply of polyester resins or of competitive products, such as polyurethanes and in the manufacture of UP compounds e.g. SMC and BMC. It is based upon a comprehensive programme of desk research and fieldwork throughout Europe including telephone and personal interviews. These in-depth interviews were carried out with high-level respondents representing the raw material suppliers, processors, end-users and with representatives of the relevant trade associations.
