

THE CHINESE ADHESIVES AND SEALANTS MARKET 2008

2nd Edition

Publication: February 2009

Price: €3,000

IAL Consultants is pleased to announce the forthcoming publication of the second edition of its report of *The Chinese Adhesives and Sealants Market*. This edition will provide an updated overview of China's adhesives and sealants market which has seen rapid expansion over the past decade, and is now facing a period of slower growth.

The Chinese synthetic adhesives and sealants market has grown rapidly over the past decade. Growth has been in double digits in recent years for many products and applications. This has meant that the Chinese market has overtaken the United States as the largest synthetic adhesives and sealants market globally.

This growth has seen this market grow to an estimated total **consumption** of over **9 million tonnes** by the end of 2008. It is forecast that the market will show lower growth over the next five years due to the cooling economic situation.

This new study will provide the following information:

- Production and consumption for 2008 and forecasts to 2013
- Imports and exports
- Market segmentation by geographic region, product and end-use sector for 2008 and forecasts to 2013
- Market shares of leading manufacturers
- Identification of leading manufacturers by product segments
- Distribution of adhesives and sealants
- Local operation features including tariffs and taxes, intellectual property, technology transfer, environmental regulations and standards
- Directory of major adhesives and sealants manufacturers

Research for this report has drawn on a variety of published sources, including government statistics, trade associations, in-house and library data. A telephone interview programme was conducted by our staff in Beijing during late 2008.

PROPOSED CONTENTS

1. Introduction

2. Executive Summary

3. Demographic, Political and Macroeconomic Background

- Population
- Political Situation
- Macroeconomic Overview

4. Raw Materials

- Demand
- Availability

5. Market Review

- Consumption
- Trade
- Production

6. Market Segmentation

- By Region
- By Product Type
- By Application

7. Supply Structure

- Leading Producers
- Foreign Investors
- Mergers and Acquisitions

8. Distribution Channels

9. Local Operating Features

10. Directory of Adhesive and Sealants Companies

- Comprehensive list of manufacturers with contact details

11. Sources of Information
